A UV water purifier with cutting edge intelligent features and a beautifully crafted design to suit your every need. Suitable for water with low TDS (less than 200 ppm TDS or municipal corporation supply and no borewell or tanker supply.)

## 1 Modern | Contemporary | Sleek & Compact

Elevate your kitchen décor to enhance your experience with sleek, stylish and premium aesthetics, designed to suit your needs.

## 2 Dual Pass UV chamber (DPUV)

Intelli UV is powered by India's 1st Dual Pass UV Chamber, a unique design in which the water passes two times through an advanced high power 11W UV lamp, providing double UV purification and ensuring purified safe and healthy drinking water.

INDIA'S  
1<sup>st</sup>  
DUAL PASS  
UV CHAMBER

## 3 Convenience at your fingertips

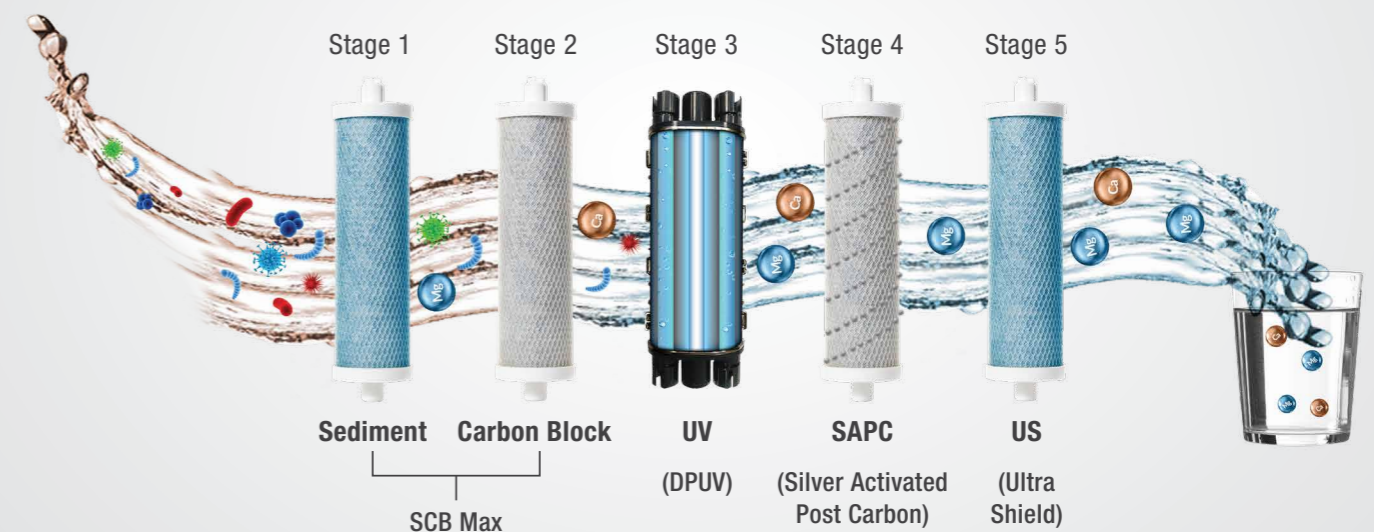

Advanced Digital Display with Touch Dispense makes dispensing and monitoring more convenient for you and your family.

Save time with Insta-dispense - dispenses water instantly after the first dispense.

## 4 Healthy drinking water with 5 stage purification

A. O. Smith Intelli UV purifies water through a 5 stage purification process with high power 11 Watt UV + US (Ultra Shield) + SAPC (Silver Activated Post Carbon)

## 5 US + SAPC

Your A. O. Smith Intelli UV is now protected with Ultra Shield (US) and Silver Activated Post Carbon (SAPC) to safeguard your water from any possible contamination.

Ultra shield (US) filters out even the smallest particles, while the ionized silver in the Silver Activated Post Carbon (SAPC) is a powerful anti-microbial agent, so your water passes through a silver based filter that prevents any microbial growth. Because impurity should have no place in your drinking water.
